

MONTH SIX – BLOCK 23 - JULY

This block is called *SNOWBALL* and is 4" square finished.

Fabric requirements for this block

This block requires two fabrics, I chose pink with text and plain green

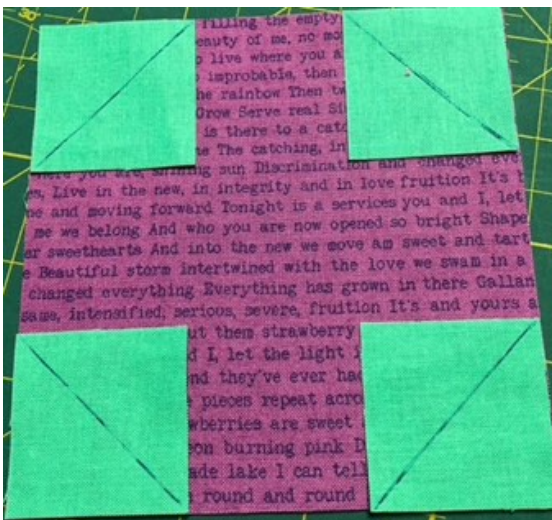

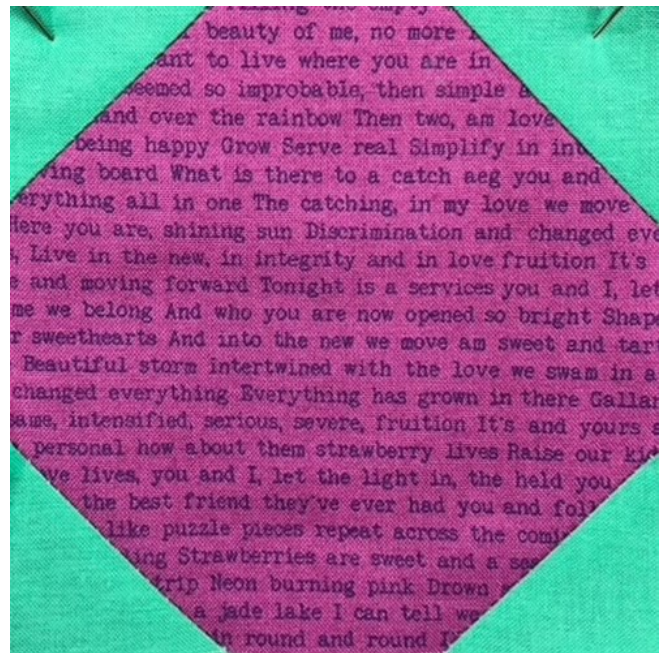

- A is pink with text
- B is plain green

Cutting

- A – pink with text – cut 1 x 4½" square
- B – plain green – cut 4 x 1½" squares

Construction

- As before we will use stitch and flip quick corners. Lay the four B plain green squares right sides together, one at each corner, with the A pink square. Draw a line corner to corner as shown. Stitch on the line, trim away excess fabric, flip the corner up and press. I always choose to leave the background (purple) excess fabric in place at the corner. Then if I have been a little bit inaccurate with my sewing I have this original square as my guide for accuracy. You may choose to trim away both the green and purple excess fabric behind the flipped corner.

The block is complete and measures 4½" square which will be 4" square finished.
